

XTERRA WETSUITS manufactures the best performing and fastest triathlon wetsuits. Our suits are designed, tested, and distributed from our Headquarters in San Diego, California.

All of our 2008 products have been re-engineered to enhance performance. This year we added the new Velocity Speedsuit and Vendetta Wetsuit. Both of these products utilize advanced cutting-edge materials that are being introduced first by XTERRA WETSUITS.

MENS SIZE	HEIGHT	WEIGHT
